HAIR EXTENSIONS EXPERT

The 4 T's of Hair Extensions

Each "T" represents a critical factor in choosing the right hair extensions

1 Type

The method of application (Tape In, Keratin Tip, Microbeads, Weft)

2 Thickness

The volume or fullness the extensions add.

3 Texture

The feel and finish of the hair (silky, wavy, curly, etc.)

4 Tone

The color options and how well they blend with natural hair.

HAIR EXTENSIONS EXPERT

“

Who would've thought?
World-class hair extensions in Bali at
a fraction of the price you'd pay back home.

It's a no-brainer!
Get the same premium quality, but
without the insane price tag—this is
where savvy clients come to level up
their look,

fast.”

Introduction to Hair Extensions

What Are Hair Extensions?

In simple terms, hair extensions are hair strand made from natural hair that are attached to a person's natural hair to enhance its length, volume, texture, or overall appearance. One of the most popular choices is HairShop.store hair extensions, known for their premium quality and natural look. Here are some key benefits of HairShop hair extensions:

- They provide a completely natural appearance.
- They have the longest lifespan compared to other human hair extensions.
- They are heat-resistant, dye-friendly, and can be styled any way you like.
- They are tangle-free and easy to comb through.
- They offer a silky smooth texture.

5 Reasons to Choose HairShop Hair Extensions

If you're considering hair extensions, especially for short hair, HairShop.store hair is a top choice. However, before making a decision, it's important to consider a few key factors to ensure you get the best results:

Hair Type

You can choose a variety of hair extensions type from the semi permanent such as Weft, Tape-ins, to the more permanent solutions as Keratin bonds in different tips as well as the temporary extensions like Clip-ins and Ponytail extensions. All available in different qualities and shades.

Lifestyle

Whether you're active, enjoy water sports, or have a busy schedule, your lifestyle plays a significant role in how you care for and maintain your extensions. Hair extensions are a long-term commitment, and it's always a good idea to seek expert advice to ensure they fit your lifestyle.

Budget

Investing in quality hair extensions can significantly enhance your confidence and appearance. Whether you're spending a few hundred dollars or more, it's important to see it as an investment in your overall look and well-being.

Matching Color or Texture

Whether your hair is curly, wavy, or straight, ensuring the extensions match your natural texture and color is crucial for a unified look. The perfect blend creates a flawless finish that is nearly indistinguishable from your own hair.

Maintenance

Proper care is essential to maintaining the longevity and appearance of your extensions. Understanding how to look after them will ensure they remain in excellent condition for as long as possible.

In the world of hair extensions, the golden rule is simple:

Perfection in matching is the key to creating a masterpiece.
When you achieve the right blend,
your hair transforms into a true work of art.

K-TIP EXTENSIONS

U-Tip

I-Tip

V-Tip

Keratin tip extensions are a long-lasting option, suits for clients who love water sports, comfortable when you do ponytail.

TAPE EXTENSIONS

Tape extensions are more discreet and can last for several weeks. They are also great for those with fine or thin hair as they lay flat against the scalp.

WEFT EXTENSIONS

Weft extensions are great for those with thick hair as they can support the weight of the extensions.

CLIP-INS EXTENSIONS & PONYTAIL

Clip-in & Ponytail extensions are a popular option as they are easy to apply and remove, making them ideal for those who want to switch up their look without committing to a long-term change. However, they are not suitable for those with fine or thin hair as they can be bulky & visible.

Installation Time

→ 4-5 hours

I-Tip

use microbeads (no hot tools)

→ 4-5 hours

I-Tip U-Tip V-Tip

use keratin glue

→ 1,5 - 2 hours

Tape

use double sided tape

→ 3 hours

Weft

sew the hair, without hot tools

→ 30 minutes

Clip-Ins

→ 10 minute

Ponytail

loose braid at night

Use sulphate free shampoo

Wash hair max 1-2 times a week

Always apply heat protections spray

Brush up to 3 times a day. From the bottom to the root

Minimize the use of hot styling tools

Do proper oiling on your hair extensions

Schedule maintenance every 6-8 weeks

Recommended Products for Hair Extensions

Sulfate Free Shampoo & Conditioner

Sulfate-free shampoo & conditioner for hair extensions are absolutely critical for your haircare routine. Using these products will help you avoid frizz, hair breakage, and generally unhealthy, dry hair.

Hair Oil

The hair oil is rich in avocado and grapeseed oils that offer a conditioning and nourishing effect from the lengths to the ends of the hair. This professional multi-care oil restores shine and suppleness to dry, damaged hair types whilst improving hair manageability.

Hair Mask

Use hair mask to nutritive your extensions everytime you wash your hair

Wet Brush

We recommend Wet Brush as your daily brush. Good to have two: one for home and the small one to put inside your bag, so you can brush your hair anywhere.

Silk Pillowcase

The smooth texture allows the fabric to glide against your hair cuticles, producing less friction than coarser fabrics that are more likely to snag hair. While silk does not outright prevent bedhead, the reduced friction can result in less tangling, frizziness, and breakage.

Silk Scrunchies

A silk scrunchie can prevent hair frizz and damage, lessen hair loss, maintain hairstyles overnight, prevent headaches, and provide an aesthetic touch to accessorize an outfit.

Tips Swimming with Extensions

Tips #1 Wear Swim Cap

One of the primary reasons for wearing a swim cap is to protect your hair from the harsh effects of chlorinated water and other pool chemicals, particularly chlorine. Chlorine, while essential for maintaining pool hygiene, can strip your hair from its natural oils

Tips #2 Prepare Bottle Spray

Step 1.
Mix some conditioner with water inside the bottle.
Spray your hair with conditioner +water

Loose Braids

Step 2.
After spray all over your hair, make a loose braids.
Now you're ready to swim.
